  {q:'How does he use data to
decide?',chip:1,k:['data','driven','decision','analytic','statistic','insight','metric','kpi','measure','dash
board','evidence','number','quantitative','qualitative'],a:'He makes product decisions through
experiments and measurement. At Gartner Digital Markets he rewrote the experimentation
methodology, took testing capacity up 3-4x and presented results to executives, including the
Gartner CMO. At G2 he set up funnel tracking and behavioral cohorts in Amplitude with
analytics, and compared image models side by side on generation time, defect detection,
auto-fix rates and review rounds. A former colleague wrote about his "rare talent for translating
complex data and test results into clear, actionable insights".'},
  {q:'What growth results has he
delivered?',chip:1,k:['growth','grow','retention','engagement','acquisition','revenue','monetization','
monetisation','lead','leads','checkout','uplift','increase'],a:'About ten years of growth work. At
Gartner Digital Markets he owned the conversion roadmap and monetization funnels
(pay-per-click and pay-per-lead) across Capterra, Software Advice and GetApp, about 2.5M
monthly sessions, with single experiments delivering uplifts of up to 15%. When he joined,
testing covered about 1% of the traffic on the biggest landing page, one test at a time; he built
trust with leadership and took it to up to about 50% of traffic, running several tests in parallel
instead of one. At iProspect he shipped funnel changes that brought 3,000+ net new leads in 8
months and a 40% lift in checkout completion.'},
  {q:'What is his AI
experience?',chip:1,k:['ai','genai','llm','model','openai','generative','gpt','image','prompt','machine',
'learning','artificial','intelligence','claude'],a:'At G2 since February 2026 he ran Content Studio, a
GenAI product. He started the quality effort, with a golden set and evaluation rubrics built with
engineering. With a model change, defects went from 41% to under 10% and generation time
from 10+ minutes to under 3. He led the evaluation and migration across leading
image-generation models, managed the technical relationship with OpenAI and shipped
production changes through code review. That is about six months of hands-on GenAI product
work on top of ten years of growth and experimentation.'},
  {q:'How does he set strategy and
roadmaps?',chip:1,k:['strategy','strategic','roadmap','prioritization','prioritisation','prioritize','prioriti
se','vision','plan','planning','pivot','backlog','trade','tradeoff'],a:'He owns roadmaps and makes the
trade-offs explicit. At Gartner he owned the conversion roadmap and built prioritization logic and
a structured risk matrix. At Festo he owned the global experimentation roadmap, tool stack and
UX optimization strategy. At G2, vendor interviews led him to the decision to pivot from static
assets to prompt-driven, self-serve generation, and he shipped it. He presented product vision
```

to executive leadership.'},
{q:'How does he work with stakeholders?',chip:1,k:['stakeholder','executive','communication','present','c-suite','leadership','cmo','cofounder','founder','influence','alignment','cross','functional','collaborate','collaboration','partner'],a:'At G2 he presented bi-weekly to the Co-Founder, SVP of Product and GM of AI, and to the whole company at the six-weekly showcases. At Gartner he presented weekly to the Managing VP and VP of Growth, with the directors of analytics, marketing and UX, team leaders and performance managers in the room, worked with all of their teams day to day, and presented results and product vision to the Gartner CMO and Head of Digital Markets. He led cross-functional delivery across engineering, UX and analytics without direct reports. Getting a risk-averse organisation to test on half its traffic was a persuasion job as much as a product one. His G2 manager wrote that he "pairs ownership with technical understanding".'},
{q:'What does Dragos do?',k:['introduce','summary','overview','describe','elevator','pitch','tldr'],a:'He is a Senior Product Manager with 10+ years in digital growth, five of them in product. His focus is experimentation, conversion and monetization, and more recently GenAI product. At Gartner Digital Markets he owned the conversion roadmap across Capterra, Software Advice and GetApp. At G2 he owned quality and speed for Content Studio, a GenAI product, and cut its defect ratio from 41% to under 10%.'},
{q:'Biggest win?',k:['win','biggest','achievement','proud','impact','result','accomplish','success','best','highlight'],a:'Content Studio quality at G2. He started the quality effort when it was not a team priority and pushed for it. Together with a model change, the defect ratio went from 41% to under 10% and generation time from 10+ minutes to under 3. His G2 manager mentions both in his LinkedIn recommendation.'},
{q:'Does he work well with engineers?',k:['engineer','developer','technical','code','codebase','dev','pr','github','engineering','ship'],a:'He managed the technical relationship with OpenAI (twice-weekly syncs) and learned the codebase well enough to ship production changes through code review. His former manager wrote that he "went beyond the spec" on this. He also built evaluation rubrics and a golden set together with engineering.'},
{q:'What is his experimentation background?',k:['experiment','experimentation','experimenting','testing','test','ab','cro','conversion','optimization','optimisation','optimizely','launchdarkly','hypothesis','velocity','capacity'],a:'About ten years: agency work at iProspect (Dentsu) in Manchester, then Festo, then Gartner Digital Markets. At Gartner he took testing capacity up 3-4x, created the first experiment QA framework and led the audit of feature-flag and A/B testing tools. Single experiments there delivered conversion uplifts of up to 15%.'},
{q:'What is he looking for?',k:['look','looking','open','next','want','hire','hiring','opportunity','opportunities','seeking','interest','interested','fit'],a:'Senior product roles in growth and experimentation, or in AI and GenAI product, as an individual contributor. Barcelona is his base. If you have a role that fits, the best next step is to write to him directly at '+EM+'.'},

{q:'Languages?',k:['language','spanish','english','romanian','speak','french','german','catalan'],a:'English and Romanian are native. Spanish is basic. He works in English.'},

{q:'Tools',k:['tool','stack','software','amplitude','ga4','analytics','hotjar','fullstory','jira','productboard','powerbi'],a:'Experimentation and feature flags: LaunchDarkly, Optimizely, Kameleoon. Analytics and behavior: Amplitude, Google Analytics (GA4), FullStory, Hotjar, ContentSquare, SessionCam, Power BI. Product work: Jira, Confluence, Productboard, Coda. Claude daily at G2, GitHub at a basic level.'},
{q:'Marketplace experience',k:['marketplace','b2b','saas','vendor','capterra','getapp','advice','gartner','monetization','monetisation','revenue','ppc','ppl','funnel'],a:'Both Gartner Digital Markets and G2 are B2B software marketplaces. At Gartner he owned the conversion roadmap and monetization funnels (pay-per-click and pay-per-lead) across Capterra, Software Advice and GetApp, about 2.5M monthly sessions. At G2 he built Content Studio for software vendors.'},
{q:'Has he managed a team?',k:['team','report','reports','direct','lead','managed','people','mentor','hierarchy'],a:'His product roles have been individual-contributor, working across engineering, UX, analytics and executive stakeholders without direct reports. He has also led cross-functional delivery and taught peers how statistics, risk and experiment design work.'},
{q:'Quality and evaluation',k:['quality','evaluation','rubric','golden','defect','metrics','measure','eval','benchmark'],a:'At G2 he started the quality effort when it was not a team priority and pushed for a golden set and evaluation rubrics, built with engineering. With the model change, defects went from 41% to under 10% and generation time from 10+ minutes to under 3.'},

{q:'Education',k:['education','degree','university','study','studied','certification','certified','baymard','ibm','school','journalism'],a:'BA in Journalism from the University of Hyperion Bucharest (2009-2012). Certifications include the Baymard Institute E-commerce UX Certification (six exams), IBM Enterprise Design Thinking Practitioner, and courses in marketing analytics and conversion rate optimization.'},
{q:'Where is he based?',k:['where','location','based','barcelona','city','relocate','remote','onsite','hybrid','country','spain','move','live','lives','living','reside'],a:'Barcelona, Spain. For other locations or remote arrangements, write to him directly at '+EM+'.'},
{q:'Career story',k:['career','background','history','start','started','began','encyclopedia','story','journey','manchester','dentsu','iprospect','bucharest','festo'],a:'He started selling encyclopedias door to door, then moved through growth, partnership and sales roles in Bucharest (WebDigital, Omniconvert). At iProspect (Dentsu) in Manchester he ran optimization for 7+ enterprise clients. Then Festo in Barcelona, then Gartner Digital Markets, then G2. Daily rejection early on, he says, was good training for stakeholder management.'},

```
{q:'References',k:['reference','recommendation','recommend','testimonial','review','vouch','collea
gue'],a:'Five people recommended him on LinkedIn: Praveen Maloo (his manager at G2),
Horacio Saenz III (nearly four years together at Gartner), Paul Griffiths (CATEGORIK), Santiago
Murillo (a former manager) and Alex David (G2). Their words are on this page. Further
references can be arranged by writing to him.'},

 var FACTS = [
```

'Dragos Pop, Senior Product Manager, Barcelona. 10+ years in digital growth, five in product management. Experimentation, growth, monetization, GenAI product.',

'G2, Senior Product Manager, Content Studio, Feb 2026 to Oct 2026 (role moved to G2 when it acquired Gartner Digital Markets). Took over product and go-to-market for Content Studio, moved it from a 10-partner closed beta to a self-serve platform. Vendor interviews led to the decision to pivot from static assets to self-serve, prompt-driven generation; shipped it plus multi-level editing and regeneration for social platforms. Started and pushed the quality effort with a golden set and evaluation rubrics built with engineering; with the model change, generation time went from 10+ minutes to under 3 and the defect ratio from 41% to under 10%. Led the evaluation and migration across leading image-generation models. Managed the technical relationship with OpenAI (twice-weekly syncs); learned the codebase well enough to ship production changes through code review. Presented bi-weekly to the Co-Founder, SVP of Product and GM of AI. Set up funnel event tracking and behavioral cohorts in Amplitude with analytics.',

'Gartner Digital Markets, Senior CRO Product Manager (2024-2026) and CRO Product Manager (2022-2024), Mar 2022 to Feb 2026, Barcelona. Owned the conversion roadmap and monetization funnels (pay-per-click and pay-per-lead) across Capterra, Software Advice and GetApp, B2B software marketplaces with about 2.5M monthly sessions. Single experiments delivered conversion uplifts of up to 15%. When he joined, testing covered about 1% of traffic on the biggest landing page, one test at a time (a test could take about six weeks); he built trust with leadership and took it to up to about 50% of traffic, running 3-4 tests in parallel on different audiences. Presented weekly to the Managing VP and the VP of Growth, with directors of analytics, marketing and UX, team leaders and performance managers in the room. Took testing capacity up 3-4x by rewriting the experimentation methodology, building prioritization logic and adding a structured risk matrix. Created the first experiment QA framework (pre-flight checks, 1-hour post-launch verification, 24-hour regression reviews), used by multiple product teams. Led the audit of feature-flag and A/B testing tools; his comparison report drove the global move to a new tool. Presented to executive leadership including the Gartner CMO and Head of Digital Markets.',

'Festo, Conversion and UX Optimization, Jan 2021 to Mar 2022, Barcelona. Owned the global experimentation roadmap, vendor tool stack and UX optimization strategy. Got executive budget approved and ran evaluation and onboarding of Hotjar and Kameleoon. Ran product discovery. Made A/B testing the mandatory validation step before engineering time was allocated.',

'iProspect (Dentsu), Optimisation Executive, Manchester, Oct 2018 to Dec 2020. Optimization and UX strategy for 7+ enterprise clients and 20+ websites in insurance, automotive leasing and e-commerce. 3,000+ net new leads in 8 months, 40% lift in checkout completion, tests worth millions of pounds in incremental value.',

'Earlier career 2014-2018 in Bucharest: growth, partnership and sales roles at WebDigital, Omniconvert and others. Signed 50+ clients at WebDigital, co-founded Blue Alliance, a network of digital agencies. Started his career selling encyclopedias door to door.',
